Leading Company in Its Sector

Our Brands

A BO UT US

MMB GROUP was established in 2015 to construct modern buildings, having completed projects in over 600,000 square meters across multiple cities, including 23,000 square meters under its own facilities.

Always using high-quality materials in its projects, MMB GROUP aims to provide its customers with a quality living environment.

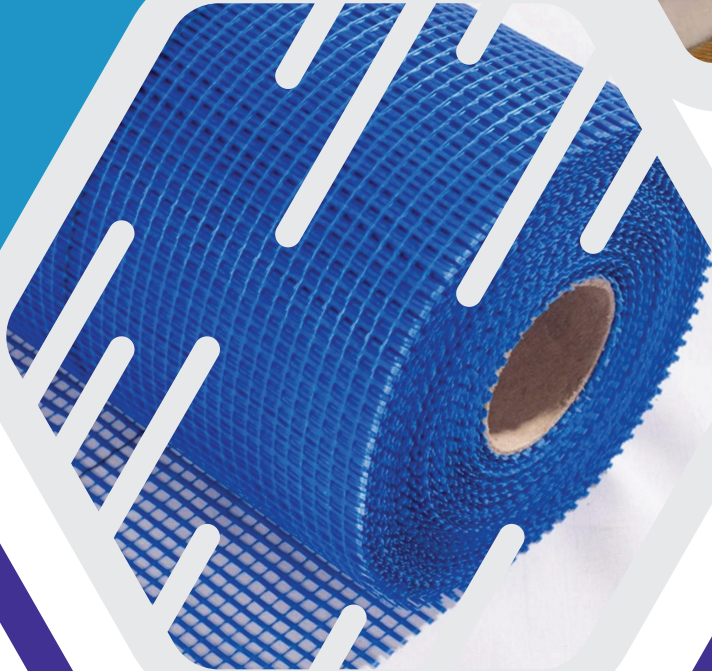

Today, the company imports various modern building materials from around the world to construct more modern buildings.

With our experience from the past, we synthesize discovered building materials and offer them worldwide.

Our partner firms produce the highest quality products in their manufacturing facilities and expand their market networks by distributing them through us.

Angle Bracket Equipment

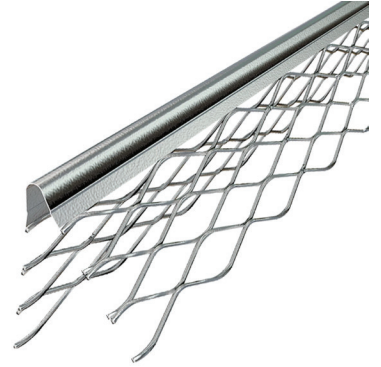

Corner Mesh

- Material: High-quality plastic and fiberglass blend.
- Size: 2m, 2.5m, 3m, or custom sizes.
- Color: White, gray, or custom colors.
- Thickness: Standard 1.0mm, 1.2mm, or 1.5mm.
- Application: Easy to cut and apply.
- Packaging: Standard 50 pieces/box or customized packaging.
- Weight: Lightweight and easy to use, approximately 0.5kg/2m.

Perforated Drywall Corner Bead

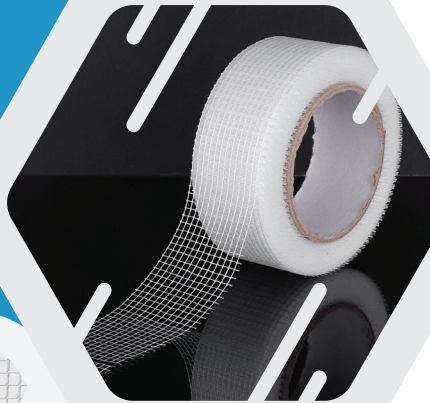

- Material: High-quality PVC or aluminum
- Dimensions: Standard lengths of 2.5m and 3m, custom sizes available
- Hole Diameter: Between 5mm and 10mm, standard or custom hole sizes available
- Color: White, gray, or custom colors
- Thickness: Between 0.5mm and 1.0mm
- Application: Easy installation on drywall, smooth finish with joint compound
- Packaging: Standard 50 pieces/box or custom packaging options
- Weight: Lightweight and easy to use

Cut Gypsum Corner Profile

- Material: Crafted from high-quality gypsum, providing robust strength.
- Available in standard lengths of 2.5 m with a width of 15 mm.
- Delik Çapı : 5mm - 10mm arası, standart veya özel delik çapları mevcuttur.
- Kalınlık: 0.5mm - 1.0mm arası.
- Applications: Ideal for new construction, interior renovations, and decor projects.
- Paketleme: Standart 50 adet/kutu veya özel ambalaj seçenekleri.

Mesh Tape

Applications

- Grout tape provides excellent results in both indoor and outdoor environments, offering effective protection in moist areas like bathrooms and kitchens. It contributes to energy efficiency in thermal insulation systems.

Effective Solution for Excellent Results

Grout tape is an essential construction material that ensures smooth and durable completion of wall and ceiling joints. Manufactured from high-quality materials, these tapes are among the most reliable solutions used in construction and renovation projects.

Product Features

Features	8x8 mm Grout Tape	9x9 mm Grout Tape
Material	High-quality fiberglass or polyester	High-quality fiberglass or polyester
Dimensions	8x8 mm	9x9 mm
Weight	60 g/m ²	70 g/m ²
Color	White (custom colors available)	White (custom colors available)
Flexibility	High	High
Waterproof	Yes	Yes
Fire Resistance	Yes	Yes

3D PVC Wall Panel

Add Depth and Elegance to Your Spaces with 3D Wall Panels

- **Aesthetic Appeal:** 3D wall panels bring a modern and sophisticated look to your spaces with various patterns and textures. Their three-dimensional structures add movement and vitality to your walls.
- **Easy Application:** The lightweight and durable structure of the panels makes the installation process extremely easy. You can apply them to your walls quickly and effortlessly without professional assistance.
- **Durability:** Made from high-quality materials, 3D wall panels are long-lasting and durable. They offer high resistance to impacts, scratches, and external factors such as moisture.
- **Sound and Heat Insulation:** 3D wall panels provide sound and heat insulation. These features increase the energy efficiency of your spaces while offering a more comfortable and quiet environment with sound insulation.
- **Customizability:** With different color, pattern, and size options, 3D wall panels allow you to add personal touches to your spaces. By choosing panels that suit your taste and decoration style, you can make your spaces unique.

Application Areas

Home Decoration: Provides aesthetic and functional solutions in living spaces such as the living room, bedroom, and kitchen. Adds a modern and stylish look to your walls.

Commercial Spaces: Creates a professional and eye-catching atmosphere in commercial areas such as offices, restaurants, hotels, and stores. Enhances customer and employee satisfaction.

Art and Exhibition Spaces: Provides a creative and impressive background in galleries, exhibition halls, and art spaces. Helps make artworks and exhibited products more attention-grabbing.

Features	Details
Product Appearance	Excellent 3D embossed effect.
Size	50 cm (Length) x 50 cm (Width) / piece, 60 cm (Length) x 60 cm (Width) / piece. Or customized sizes supported.
Thickness	1.0mm (widely used), 1.2mm-1.5mm (uncommonly used).
Material	Made of high-quality building plastic.
Color	Natural color is white; can be painted any color according to your demands.
Designs	Rich and popular designs are available. Or customized designs supported.
Features	Elegant, lightweight (less than 1.4kg/square meter), fireproof, eco-friendly, waterproof, washable, moisture-proof.
Easy Installation	DIY is possible. Just stick the panel on the wall with glue.
Packing	Neutral cartons or as your request.
